

ACTi Disk RDX 5,25", int. USB 3.0, up to 230 MB/sec transfer rate, data & power cable, 3 years Fast Exchange Service

Data loss from system failure or hacker attacks can be a major challenge for companies. With the actiDisk RDX® USB 3.0 Professional Line, users can back up their sensitive data on removable RDX® hard drives and protect themselves against data loss.

The actiDisk RDX® Professional Line device, which is available in a desktop format, is equipped with an RDX® drive and is simply connected and operated via an external USB 3.0 interface to Windows or Linux servers. The servers recognize the RDX® media as exchangeable hard disks. It can also be used as a backup, archive or recovery medium together with backup software including follow-up media management, catalog and archive management.

KEY FEATURES

- RDX® Drive in Desktop Chassis (Side Box): including a RDX® USB 3.0 drive.
- External USB 3.0 interface: for direct connection to a server.
- Compatible with Windows and Linux operating systems: direct support as RDX® hard disk exchange system.
- Optional backup software supported. Follow media management: as well as restore, archive and extensive search functions.
- Built-in power supply with front side on/ off switch: according to energy-efficient 80PLUS standard.
- Three year warranty: including advance exchange service.
